about us

The inspiration behind hide & chic is Julia Turnwald, a home makeover specialist with more than 10 years' experience in advertising, marketing and property.

Julia's background as a media consultant, real estate marketer, photographer and artist led her to identify a gap in the market for an affordable home makeover service. With growing numbers of people looking to restyle their homes without the expense of interior design or the inconvenience of home staging, hide & chic was soon born.

As founder of hide & chic, Julia's philosophy is built on openness, honesty and a commitment to excellent customer service. These values, together with Julia's genuine passion and flair for interiors, colour, art and design, extend to all aspects of the business today.

As a hide & chic client, you'll find our approach is accessible, hands-on and personal, built on our ability to listen, to understand your needs and tailor solutions that fit perfectly with your lifestyle, your tastes and your budget
